

December 6, 2021

Dear Commissioners:

On behalf of NBCUniversal, I respectfully submit the following comments in support of the Commission adopting a supervisorial map that keeps our entire business operations on the Universal lot (100 Universal City Plaza) in one district.

Option F-2 would divide the Universal Studios Lot, spanning 400 acres, into two different supervisorial districts. The Universal lot is already a multi-jurisdictional property with most of the lot located in unincorporated county, and parcels on property edges located within City of Los Angeles limits (see attached map). Dividing the property further into two supervisorial districts creates redundancies and could potentially make it more difficult for us to coordinate with the county on numerous business and community-related matters. To maximize coordination and efficiency for the property and the business operations on-site, it would be best for our entire property to be represented by one county supervisor.

For these reasons, we ask that you reconsider Option F-2 and adjust the boundaries around the Universal Studios lot to include the entire property in one supervisorial district. This technical change would not impact the population percentages allocated to each district. We are available to answer any questions regarding Universal lot property boundaries.

Thank you for your consideration.

Sincerely,

Kathy Bañuelos

Vice President
